- Delivered a detailed analytical workstream, documented the method, collaborated with stakeholders, and translated findings into evidence-based recommendations. Contribution 1.1.
- Delivered a detailed analytical workstream, documented the method, collaborated with stakeholders, and translated findings into evidence-based recommendations. Contribution 1.2.
- Delivered a detailed analytical workstream, documented the method, collaborated with stakeholders, and translated findings into evidence-based recommendations. Contribution 1.3.
- Delivered a detailed analytical workstream, documented the method, collaborated with stakeholders, and translated findings into evidence-based recommendations. Contribution 1.4.
- Delivered a detailed analytical workstream, documented the method, collaborated with stakeholders, and translated findings into evidence-based recommendations. Contribution 1.5.

Organisation 2

Jan 2024 - Jan 2025

Analytics Role 2

United Kingdom

- Delivered a detailed analytical workstream, documented the method, collaborated with stakeholders, and translated findings into evidence-based recommendations. Contribution 2.1.
- Delivered a detailed analytical workstream, documented the method, collaborated with stakeholders, and translated findings into evidence-based recommendations. Contribution 2.2.
- Delivered a detailed analytical workstream, documented the method, collaborated with stakeholders, and translated findings into evidence-based recommendations. Contribution 2.3.
- Delivered a detailed analytical workstream, documented the method, collaborated with stakeholders, and translated findings into evidence-based recommendations. Contribution 2.4.
- Delivered a detailed analytical workstream, documented the method, collaborated with stakeholders, and translated findings into evidence-based recommendations. Contribution 2.5.

Organisation 3

Jan 2024 - Jan 2025

Analytics Role 3

United Kingdom

- Delivered a detailed analytical workstream, documented the method, collaborated with stakeholders, and translated findings into evidence-based recommendations. Contribution 3.1.
- Delivered a detailed analytical workstream, documented the method, collaborated with stakeholders, and translated findings into evidence-based recommendations. Contribution 3.2.
- Delivered a detailed analytical workstream, documented the method, collaborated with stakeholders, and translated findings into evidence-based recommendations. Contribution 3.3.
- Delivered a detailed analytical workstream, documented the method, collaborated with stakeholders, and translated findings into evidence-based recommendations. Contribution 3.4.
- Delivered a detailed analytical workstream, documented the method, collaborated with stakeholders, and translated findings into evidence-based recommendations. Contribution 3.5.

Organisation 4

Jan 2024 - Jan 2025

Analytics Role 4

United Kingdom

- Delivered a detailed analytical workstream, documented the method, collaborated with stakeholders, and translated findings into evidence-based recommendations. Contribution 4.1.
- Delivered a detailed analytical workstream, documented the method, collaborated with stakeholders, and translated findings into evidence-based recommendations. Contribution 4.2.
- Delivered a detailed analytical workstream, documented the method, collaborated with stakeholders, and translated findings into evidence-based recommendations. Contribution 4.3.
- Delivered a detailed analytical workstream, documented the method, collaborated with stakeholders, and translated findings into evidence-based recommendations. Contribution 4.4.
- Delivered a detailed analytical workstream, documented the method, collaborated with stakeholders, and translated findings into evidence-based recommendations. Contribution 4.5.

Organisation 5

Jan 2024 - Jan 2025

Analytics Role 5

United Kingdom

- Delivered a detailed analytical workstream, documented the method, collaborated with stakeholders, and translated findings into evidence-based recommendations. Contribution 5.1.
- Delivered a detailed analytical workstream, documented the method, collaborated with stakeholders, and translated findings into evidence-based recommendations. Contribution 5.2.
- Delivered a detailed analytical workstream, documented the method, collaborated with stakeholders, and translated findings into evidence-based recommendations. Contribution 5.3.
- Delivered a detailed analytical workstream, documented the method, collaborated with stakeholders, and translated findings into evidence-based recommendations. Contribution 5.4.
- Delivered a detailed analytical workstream, documented the method, collaborated with stakeholders, and translated findings into evidence-based recommendations. Contribution 5.5.

- ### Organisation 7
- #### Analytics Role 7

Jan 2024 - Jan 2025
United Kingdom

- ## Organisation 8
- ### *Analytics Role 8*

Jan 2024 - Jan 2025
United Kingdom

- ## Organisation 9
- ### *Analytics Role 9*

Jan 2024 - Jan 2025
United Kingdom

- Example University**
MSc Business Analytics

Sept 2023 - Sept 2024
United Kingdom

- Project 1:** Delivered a detailed analytical workstream, documented the method, collaborated with stakeholders, and translated findings into evidence-based recommendations. Project evidence 1. (Python, Power BI)

Project 2: Delivered a detailed analytical workstream, documented the method, collaborated with stakeholders, and translated findings into evidence-based recommendations. Project evidence 2. (Python, Power BI)

Project 3: Delivered a detailed analytical workstream, documented the method, collaborated with stakeholders, and translated findings into evidence-based recommendations. Project evidence 3. (Python, Power BI)

Project 4: Delivered a detailed analytical workstream, documented the method, collaborated with stakeholders, and translated findings into evidence-based recommendations. Project evidence 4. (Python, Power BI)

Project 5: Delivered a detailed analytical workstream, documented the method, collaborated with stakeholders, and translated findings into evidence-based recommendations. Project evidence 5. (Python, Power BI)

Project 6: Delivered a detailed analytical workstream, documented the method, collaborated with stakeholders, and translated findings into evidence-based recommendations. Project evidence 6. (Python, Power BI)
